DEEP FRYING PAN**

casablanca

IMPORTANT CARE AND
CLEANING GUIDES:

- Never clean the pan with strong acid or alkaline
- Avoid scrubbing the pan surface with steel wool pad as this will damage the pan surface.
- Wipe using sponge or soft cloth
- Use nylon or wooden utensils in order not to damage the surface and
- Never heat up an empty pan especially with induction hobs. Critical temperatures can be reached very quickly. Overheating can lead to the overheating effect.
- Selection of the coating
